

LE-Q4R

Industrial Use Rubber Duck LTE 4G Antenna

Product Description

Santa Fe **LE-Q4R** is an industrial use rubber duck 4G LTE antenna that supports worldwide LTE bands. The standard connector type of the antenna is swivel SMA plug and the antenna enclosure color is black.

Customized antenna spec / freq. is welcome to discuss.

Highlight

- Designed for worldwide LTE frequencies
- Customized antenna spec is welcome.
- Ground independent antenna design

LTE Antenna Specification

Frequency	698~960MHz 1710~2690MHz
Gain (Peak)	2.0dBi @ 698~960MHz 2.5dBi @ 1710~2170MHz 3.0dBi @ 2490~2690MHz
VSWR	< 2.8 @ 698~915MHz < 2.5 @ 1710~2690MHz
Impedance	50Ω
Polarization	Omni-directional
Max. Input Power	50W

Mechanical Specification

Dimension	168mm(L) x 13mm (Dia.)
Connector	SMA swivel plug
Color	Black
Weight	10g
Operation Temperature	-40 °C to +70 °C
Storage Temperature	-40 °C to +75 °C
Relative Humidity	Up to 95%
RoHS	Compliant
Material	ABS
